Sonali

(Entry-Level Web Developer)

✉ sonalisingh777888@gmail.com 📞 9650588739 📍 Noida

Profile Summary

➢ Entry-level web developer with experience in building dynamic, responsive, and user-friendly websites. Skilled in JavaScript, HTML, and CSS, and currently learning modern development tools.
➢ Build several projects during self-study journey, applying with JavaScript, HTML, CSS, Bootstrap, and React to develop responsive and user-friendly websites.

Projects

Project: Personal Blog Link
Skills: using HTML & CSS

Project Description:
➢ Built a personal blog website using HTML and CSS.
➢ Focused on responsive design to ensure the blog is accessible on mobile and desktop devices.
➢ Created a clean, user-friendly layout with navigation and content sections.
➢ Utilized modern CSS techniques (e.g., Flexbox, Grid) for layout and styling.

Project: Chat with AI (Gemini) Link
Skills: using React.js

Project Description:
➢ Developed an AI-powered chat application using React.js.
➢ Integrated AI capabilities to provide dynamic and interactive conversations.
➢ Implemented a responsive UI with modern React components for a seamless user experience.

Project: Personal Health Quiz Link
Skills: using HTML, CSS & JavaScript

Project Description:
➢ Developed an interactive health quiz using HTML, CSS, and JavaScript to provide personalized results.
➢ Designed a clean and responsive user interface for an engaging experience on all devices.
➢ Implemented JavaScript logic to handle quiz questions, track user responses, and generate results dynamically.

Project: Dummy Website Link
Skills: using HTML, CSS & Bootstrap

Project Description:
➢ Built a responsive and visually appealing website using HTML, CSS, and Bootstrap.
➢ Implemented Bootstrap components (navbar, cards, buttons, and grids) for a modern and structured layout.
➢ Ensured mobile responsiveness using Bootstrap's grid system and media queries.
➢ Applied custom CSS styling to enhance the design beyond Bootstrap's default styles.

Project: Calculator Link

Skills: using HTML, CSS & JavaScript

Project Description:
➤ Developed a fully functional calculator using HTML, CSS, and JavaScript.
➤ Designed a responsive and intuitive UI, ensuring smooth usability across devices.
➤ Implemented JavaScript logic to handle arithmetic operations, input validation, and error handling.
➤ Utilized CSS styling to create a clean and modern look, enhancing user experience.

Qualification

- BCA, MMHA&P University – 78.2%
  08/2018 - 05/2021
